

TANKSTATION MOBILE

TANKSTATION MOBILE

The Tankstation Mobile is a flexible and robust fuel solution designed for rapid deployment in demanding environments. Built to the same size as a 20-foot High Cube container, it can be mounted on a hooklift frame for quick loading and relocation. Capacity options up to 23 m³ in a 20-foot HC and 55 m³ in a 40-foot HC, making it suitable for both compact and high-volume operations.

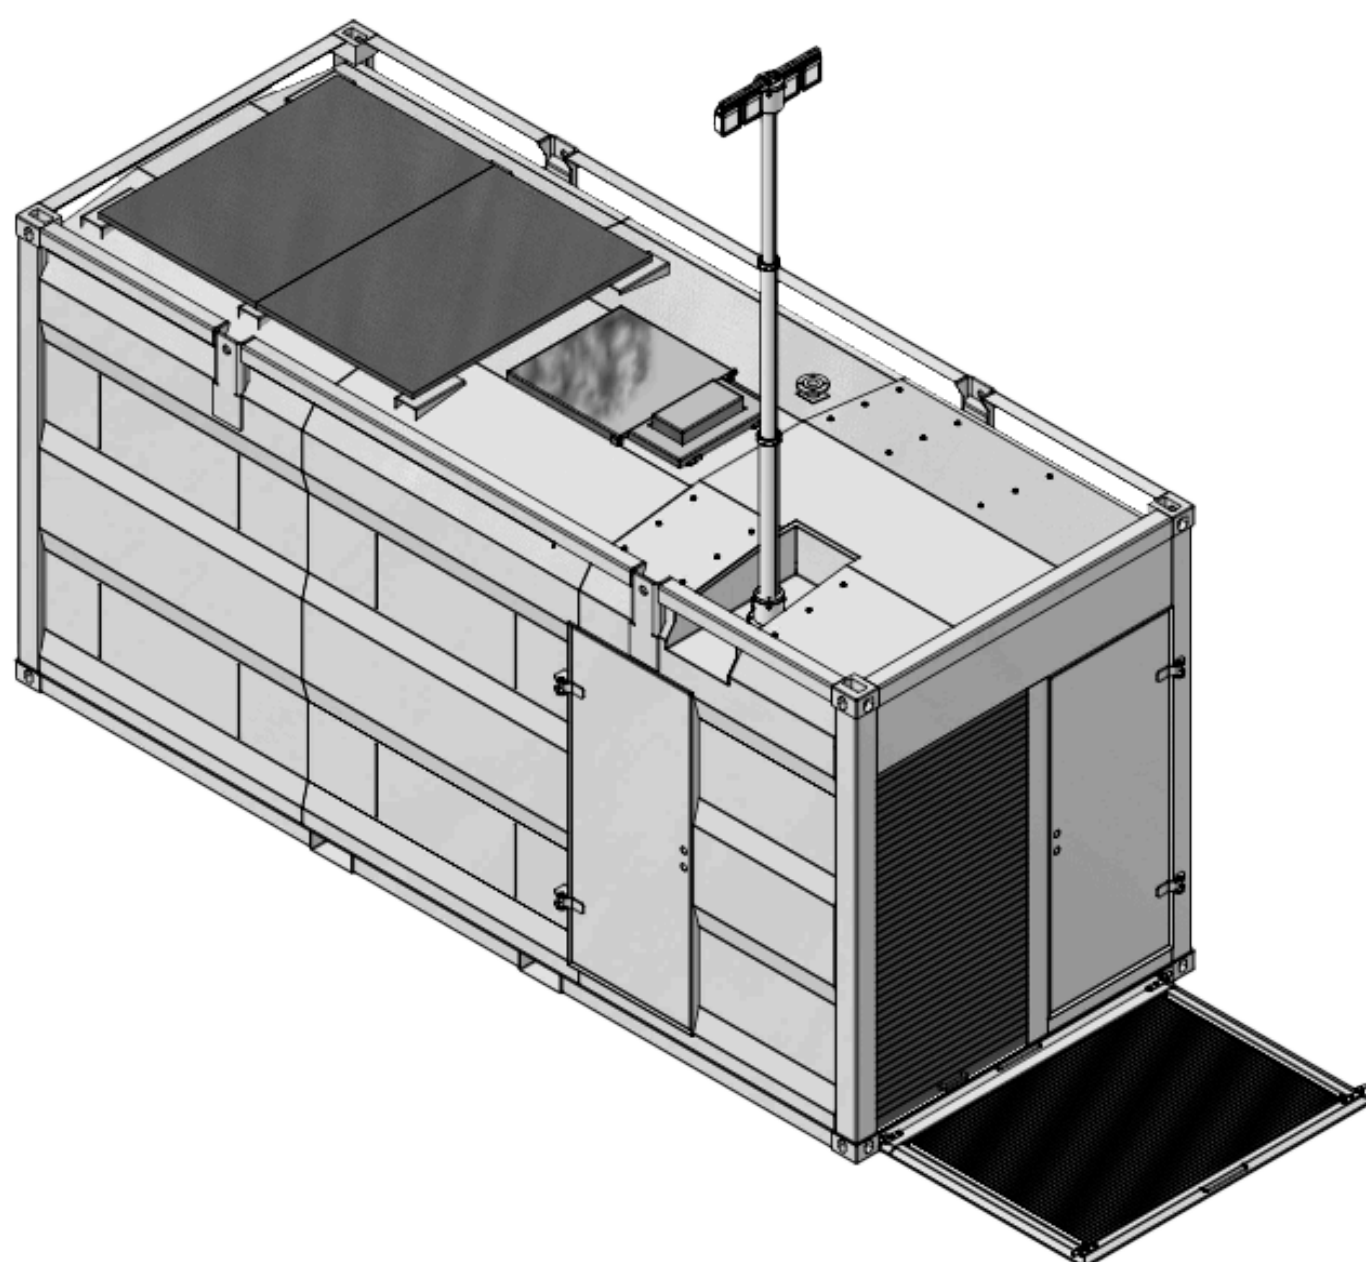

Ideal for use in construction sites and defence areas. Optional equipment includes generators, pumps, battery packs, light masts, terminals, and more.

CERTIFICATIONS AND APPROVALS

MSBFS 2018:3

NFS 2021:10

EN 1522 BR7 (depending on configuration)

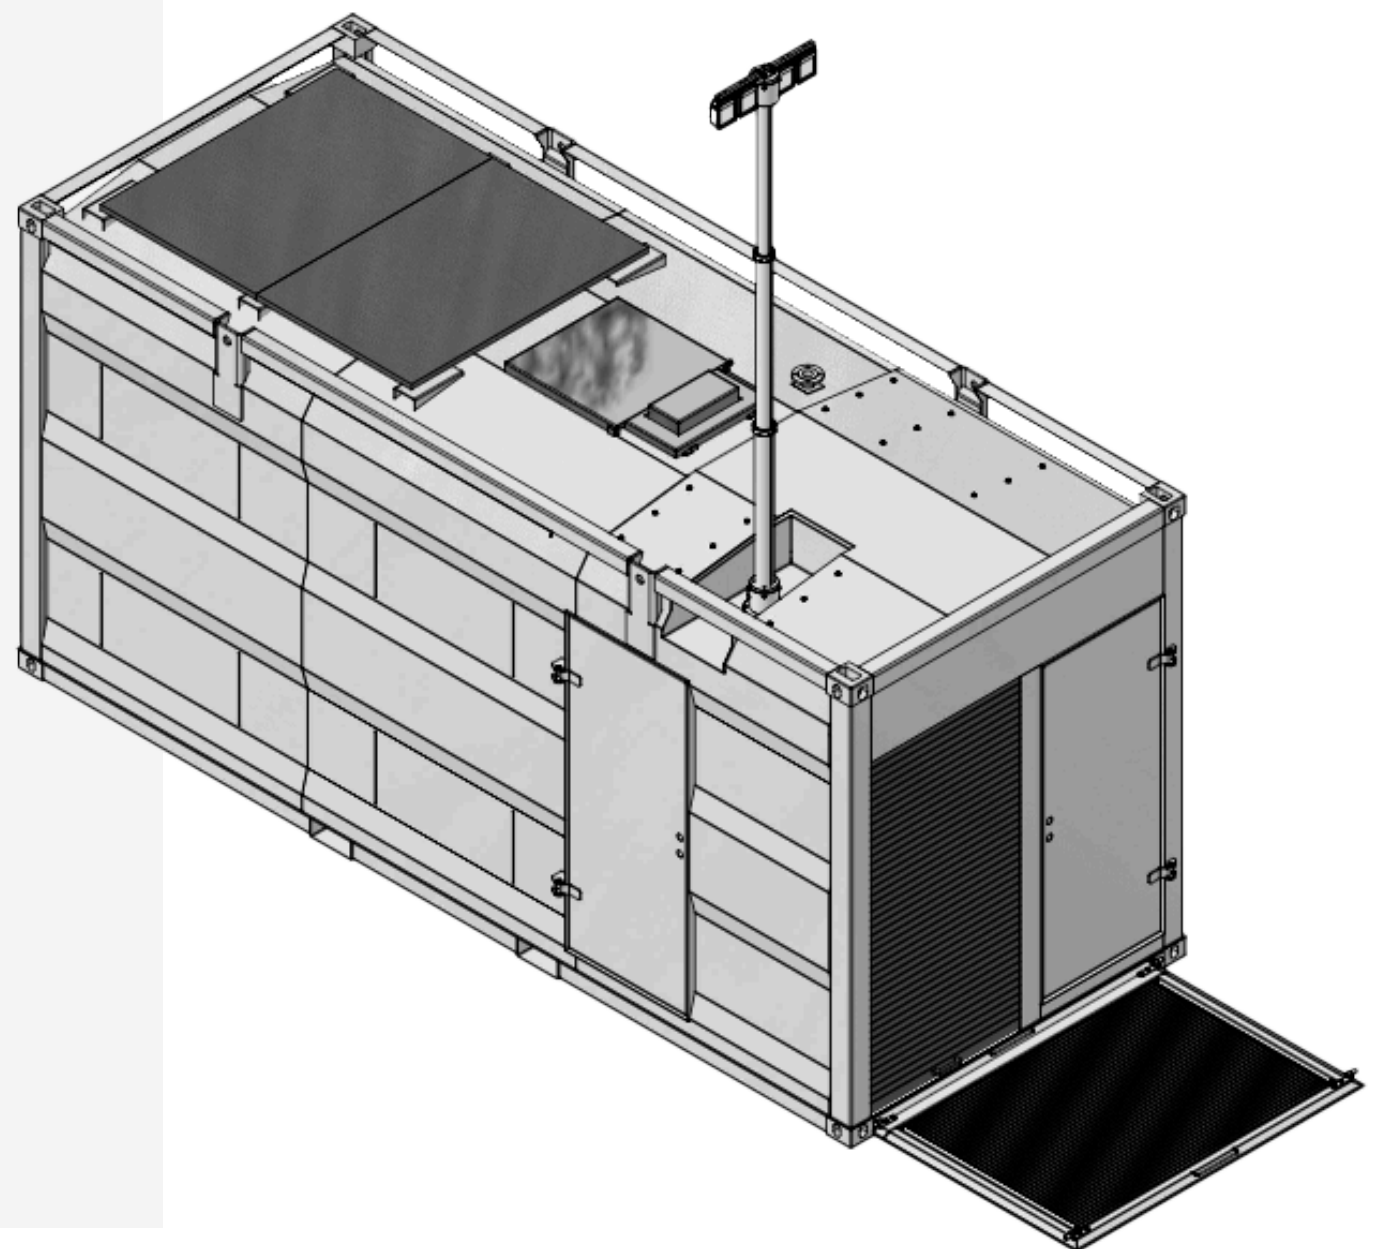

ABOUT MPP

We develop and produce mobile and stationary fuel and energy solutions for critical environments in defense and preparedness, backup power, and fuel logistics. Our future-proof solutions are reliable, robust, user-friendly, and can be customized to your needs in close collaboration with our dedicated team. Our team combines technical know-how with a strong commitment to compliance. Working closely with you, we deliver fast, tailored solutions and unmatched service

OVERVIEW TANKSTATION MOBILE

SPECIFIKATIONER

Art nr	TSM
Längd (m)	6,06
Bredd (m)	2,44
Höjd (m)	2,89
Netto Vikt (kg)	5400

Pump options up to 1000l/min

Lighting

Electrical cabinet
